Professional Goals — Design original layouts and graphics that meet official web validation standards as well as cross-browser compatibility standards. Always looking to develop my personal skills. Show a willingness to learn and implement new techniques relating to the field as well as bringing motivation, dedication, and passion to my work.

Experience — Demonstrated experience with a variety of programming languages relating to web design as well as creating graphics and layouts. Experience also with many professional standard graphics programs for creating brand images and designing graphics to complement layouts, as well as online marketing, utilizing the power of social networks.
